What is inspiration?

I identify inspiration with beginnings, as a privileged moment. Beginnings are a fundamental inspiration, since they contain the unknown, the amazement and the surprise, the unexpected, the mysterious and indecipherable of what the project can be. And it is our desire to know, to learn, that moves us forward.

What inspires you?

Drawing by hand, as it allows thoughts to advance, it is the tool that allows doubt, which makes visible the difficulties of moving forward but at the same time allows progress, precisely by making them visible.
